

FORPROMT

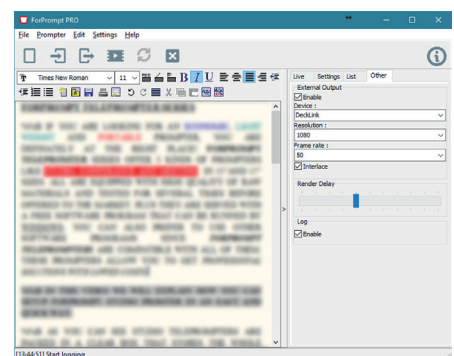

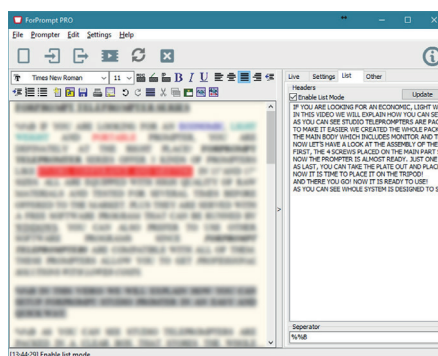

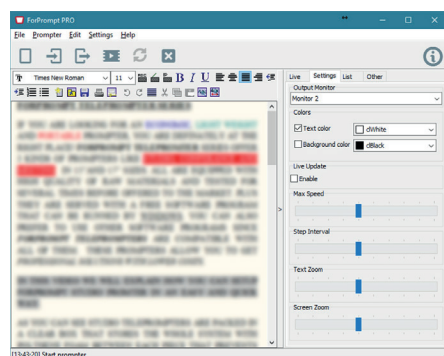

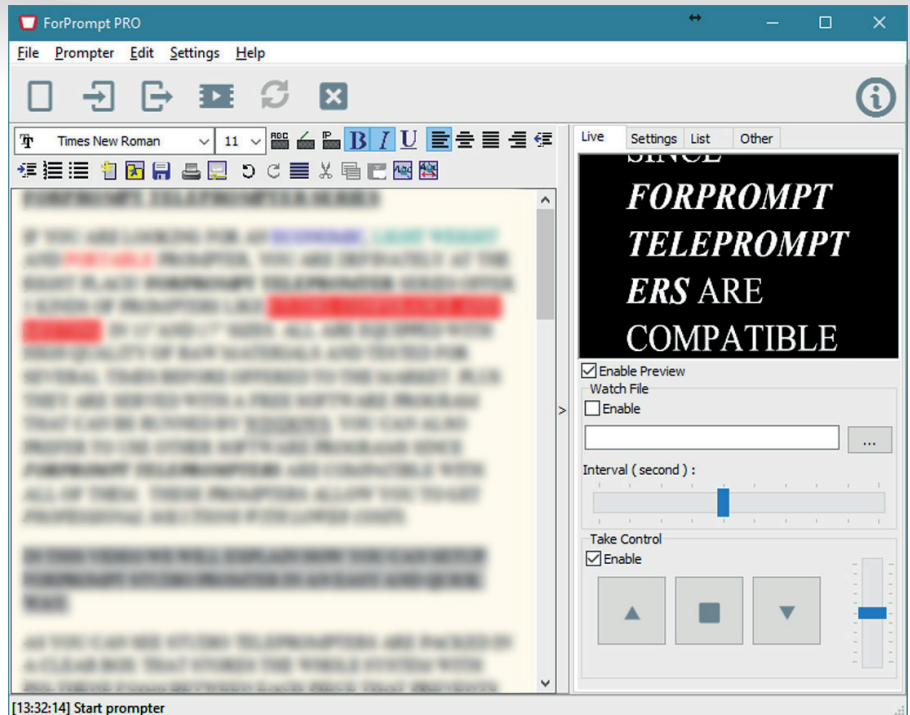

Teleprompter Software

Fortinge is proud to present 'ForPrompt', our full-scale teleprompting software application.

We designed it for live broadcasting environments, and it can be used in every level of broadcasting studio. It is compatible with all major newsroom systems via MOS protocol**.

ForPrompt has multi-language support, updates in real-time and rich text-file support – ForPrompt is a comprehensive, invaluable solution for challenging live broadcasts.

(* Available in pro version only.
 (**) Mos Bridge plugin is sold separately.
